

**Proceedings of the Seventh Neural Computation
and Psychology Workshop**

Connectionist Models of Cognition and Perception

Editors

John A. Bullinaria

Will Lowe

World Scientific

CONTENTS

Preface <i>John A. Bullinaria & Will Lowe</i>	vii
CELL ASSEMBLIES	1
Describing Low Level Psychological Phenomena through Cell Assemblies <i>Christian R. Huyck</i>	3
The Implications of Binding for Models of Cognitive Brain Function <i>Pieter H. de Vries & G.J. Dalenoort</i>	14
REPRESENTATION	25
The Evolution of Gated Sub-Networks and Modularity in the Human Brain <i>John A. Bullinaria</i>	27
The Role of Perception and Action in Object Categorisation <i>Anna Borghi, Andrea Di Ferdinando & Domenico Parisi</i>	40
Using Autoencoders to Model Asymmetric Category Learning in Early Infancy: Insights from Principal Components Analysis <i>Christophe L. Labiouse, Robert M. French & Martial Mermillod</i>	51
Perception Orientated Representation in Problem Solving <i>Andrzej Wichert</i>	64
Measurement and Design of Goal Directed Behaviour <i>Adrian P. Wale & M.K. Weir</i>	78
Infant Habituation: A Review of Current Computational Models and a New Proposal <i>Silvain Sirois & Denis Mareschal</i>	90
MEMORY	105
Habituation During Encoding of Episodic Memory <i>Sverker Sikström</i>	107
An Activation-Based Theory of Immediate Item Memory <i>Eddy J. Davelaar & Marius Usher</i>	118
Short Term Memory in a Network of Spiking Neurons <i>Jacques Sougné</i>	131

VISION	143
Psychological Correlates of Face Shapes <i>Peter J.B. Hancock</i>	145
Computational Grating and Bar Cell Models <i>Luis M. Santos & J.M.H. du Buf</i>	156
Efficient Processing in the Retina <i>Benjamin T. Vincent</i>	169
Implementation of Visual Routines <i>Gert J. van Tonder & Y. Ejima</i>	180
How Do People Look at Natural Images? <i>Benjamin W. Tatler & Roland J. Baddeley</i>	193
PERCEPTION	207
Neural Network Modelling of Inhibition in Visuo-Motor Control <i>Howard Bowman, Adam Aron, Martin Eimer & Friederike Schlaghecken</i>	209
Low Level Priming as a Consequence of Perception <i>Gabor Szirtes & Andras Lörincz</i>	223
Natural Scene Perception: Visual Attractors and Image Processing <i>Alan Chauvin, J. Herault, C. Marendaz & C. Peyrin</i>	236
Ebbinghaus Illusion: Questioning the Role of Conceptual Similarity <i>Sophie M. Lambert & Assaad E. Azzi</i>	249
LANGUAGE	263
Integrating Perception and Production in a Neural Network Model <i>Gert Westermann & Eduardo R. Miranda</i>	265
Syllabic Phase: A Bottom-up Representation of the Temporal Structure of Speech <i>Tom Hartley</i>	277
The Influence of Semantics in Lexical Selection in Speech <i>Robert A.I. Davies</i>	289
Author Index	303
